CONDUCT OF PLEASURE CRAFT DURING REDUCED VISIBILITY IN THE PORT OF SINGAPORE

1 Visibility in the Port of Singapore may be affected due to prolonged and widespread haze or other environmental factors. In the interest of safety of navigation and life at sea, the Port Master may restrict the movement of pleasure craft in the port waters during reduced visibility conditions.

2 Owner/master and marina operators of pleasure craft will be duly notified to restrict pleasure craft movements if the state of visibility reduces to less than 0.5 nautical miles.

3 For pleasure craft intending to enter or depart port, the Port Master may grant an exemption, on condition that the craft is fitted with operational radar and electronic positional fixing equipment. The requests for such exemptions can be directed to the Marine Safety Control Centre at Tel: 63252488/ 63252489 or (email: pms @ mpa.gov.sg).

4 Owner/master and marina operators of pleasure craft will also be duly notified when the restriction on pleasure craft movements is lifted (when visibility conditions increases to more than 0.5 nautical miles).

5 Any queries relating to this notice should be directed to Capt Dilshad Ahmad (Tel: 63252419).

DAKNASH GANASEN
DEPUTY PORT MASTER
