Amendment of reporting procedures for vessels manoeuvring in port
(PMC 10/2018 is reprinted on pages 2-15)

The following is a reprint of PMC 10/2018

MARITIME AND PORT AUTHORITY OF SINGAPORE

PORT MARINE CIRCULAR

NO. 10 OF 2018

18 December 2018

Shipping Community
Harbour Craft Community

AMENDMENT TO REPORTING PROCEDURES FOR VESSELS MANOEUVRING IN PORT

With reference to Port Marine Circular No.9 of 2018, with effect from 6 December 2018, Singapore's port limits have been revised. Through this circular, the reporting procedures for vessels manoeuvring in port have been amended. This circular supersedes Port Marine Circular No. 04 of 2009.

2 Pursuant to sections 10, 44 and 45 of the Maritime and Port Authority of Singapore Act (Cap. 170A) and regulation 3 of the Maritime and Port Authority of Singapore (Port) Regulations 1997, the Port Master hereby directs that with effect from 19 December 2018 at 0001hours, all vessels to which this circular applies shall comply with the amended reporting procedures for vessels manoeuvring in port in Annex A.

3 Vessels are also reminded to comply with Port Marine Circular No. 10 of 2010. All power driven vessels irrespective of size will be required to be fitted with a working transponder as a port entry requirement.

4 For any enquiry, please contact the Port Operations Control Centre at Tel at +65 6325 2493 /4.

CAPTAIN KEVIN WONG
PORT MASTER
MARITIME AND PORT AUTHORITY OF SINGAPORE

The following is a reprint of PMC 10/2018

REPORTING PROCEDURES FOR VESSELS MANOEUVRING IN PORT

Application

The VHF radiotelephone reporting procedures for vessels manoeuvring in port shall apply to:

- (a) vessels of 300 GT and above;
- (b) tugs engaged in towing or pushing if the combined GT of the tug and tow or vessel(s) being pushed is 300 GT and above;
- (c) all passenger vessels;
- (d) vessels of 30m or more in length; and
- (e) vessels of 30m or more in height
- (f) all vessels navigating through the port waters in the West Johor Strait reporting sector without calling at the Singapore port

Reporting Sectors

2 East Johor Strait, Keppel Harbour, Cruise Bay, Sinki, Pasir Panjang, West Jurong, West Johor Strait, Eastern and Western Sectors are designated as reporting sectors. The geographical boundaries of the sectors are described in **Appendix 1** and shown in the attached **Chartlet in Appendix 6**. Vessel intending to enter, move within or leave a reporting sector shall first call on the appropriate control station and obtain permission to conduct the manoeuvre.

Control Stations

3 For the purpose of VHF radiotelephone reporting by vessels manoeuvring in port, the port water is divided into 9 sectors. Each sector has a control station operating on a designated VHF Channel. The designated VHF Channels for the sectors are listed in the table below:

Reporting Sectors	Control Stations	Designated VHF Channels
East Johor Strait Sector	Sembawang Control	21
Keppel Harbour Sector	Keppel Control	18
Cruise Bay Sector	Cruise Bay Control	5
Sinki Sector	Sinki Control	68
Pasir Panjang Sector	Pasir Panjang Control	25
West Jurong Sector	Jurong Control	22
West Johor Strait Sector	Jurong Control	22 ¹

¹ If VHF is not available onboard, report is to be made via telephone to Port Operations Control Centre at +65 6325 2493 /4.

The following is a reprint of PMC 10/2018

Eastern Sector	East Control	12
Western Sector	West Control	68

Types of Reports

4 There are 4 types of reports, namely, Channel Information Report, Arrival Report, Underway Report and West Johor Strait Sector Report. Depending on the sector in which a vessel is in, every report shall be made to the appropriate control station.

5 All reports made to the designated control stations shall be in English. Timings shall be provided in local time following the 24-hour standard format.

6 The height of vessel refers to the height (in metres) measured vertically from the water-line of the vessel to the highest point of the vessel including its cargo, structure or equipment on board. If there are extendible structures on board, the highest point shall be the maximum height attainable by these structures when fully extended, if such extended height exceeds the height of its cargo, or fixed structures or equipment.

(a) Channel Information Report

- (i) This report shall be made by an arriving vessel prior to entering the port or a vessel intending to move within or leave the port. The report shall be made to the appropriate control station on the designated VHF Channel listed in paragraph 3.
- (ii) The report shall contain the following information:
 - *name or callsign of vessel*
 - *vessel's draft*
 - *present location*, i.e position when entering port limit
 - *destination*, i.e. *new location in port or bound for sea*
 - *height*
 - *remarks, if any*
- (iii) For a vessel intending to enter, move within or leave a **reporting sector**, it shall obtain permission from the control station before conducting the manoeuvre.
- (iv) Before proceeding to or departing from a terminal, a vessel shall comply with the guidelines in **Appendix 2**.

(b) Arrival Report

- (i) This report shall be made by a vessel when it has arrived at the

The following is a reprint of PMC 10/2018

destination in port. The vessel shall report to the appropriate control station on the designated VHF Channel listed in paragraph 3.

- (ii) For a vessel arriving at a terminal, the report shall contain the following information:

- *name or callsign of vessel*
- *arrival date and time*
- *name of the berth and terminal*

- (iii) For a vessel arriving at an anchorage, the report shall contain the following information:

- *name or callsign of vessel*
- *arrival date and time*
- *name of the anchorage*
- *bearing and distance of the vessel from one of the position reference points listed in **Appendix 3**.*

Note: Every vessel at anchor is required to maintain a continuous listening watch on the appropriate VHF Channel.

(c) **Underway Report**

- (i) This report shall be made by a vessel when it is underway in a channel after leaving an anchorage or a berth, as well as when it passes abeam of the points listed in **Appendix 4**. The vessel shall report to the appropriate control station on the designated VHF Channel listed in paragraph 3.

- (ii) The underway report shall contain the following information:

- *name or callsign of vessel*
- *present location e.g. abeam of NE Corridor Buoy*

- (iii) Every vessel when underway shall maintain a continuous listening watch on the VHF Channel that is designated for the sector the vessel is in.

- (iv) Vessels are advised to keep additional listening watch on VHF Channel 16.

(d) **West Johor Strait Sector Report**

- (i) This report shall be made by a vessel prior to entering and leaving the West Johor Strait reporting sector.

The following is a reprint of PMC 10/2018

(ii) The report shall contain the following information:

- *name or callsign of vessel*
- *vessel's draft*
- *present location, i.e. position when entering port limit*
- *destination, i.e. new location in port or bound for sea*
- *height*
- *remarks, if any*

7 A summary of the above reporting procedures is tabulated in **Appendix 5** for quick reference.

The following is a reprint of PMC 10/2018

Appendix 2

GUIDELINES FOR VESSELS PROCEEDING TO OR DEPARTING FROM A TERMINAL IN A REPORTING SECTOR

- 1 Before proceeding to a terminal and prior to entering the reporting sector, the master of the vessel shall ensure that:
 - (a) the berth at the terminal or shipyard is clear from obstructions and that adequate personnel are available to assist the vessel during the berthing;
 - (b) the tug(s) where applicable are in position to assist the vessel;
 - (c) the VHF working channel for berthing has been agreed and tested;
 - (d) the vessel's navigational equipment/steering gear including the ship's whistle are tested; and
 - (e) any other precautions deemed necessary for the safe navigation and berthing of the vessel are observed.

- 2 Before unberthing at a terminal within a reporting sector, the master of the vessel shall ensure that:
 - (a) it is in a state of readiness to proceed out;
 - (b) the tugs (s) are made fast to the vessel;
 - (c) the vessel's navigational equipment /steering gear including the ship's whistle is tested;
 - (d) the VHF equipment is in good working condition;
 - (e) for inter-terminal or inter-shipyard movement, the other berth is safe and ready to receive the vessel; and
 - (f) any other precautions deemed necessary for the safe unberthing and navigation of the vessel are observed.

- 3 Masters of vessels navigating within a reporting sector are reminded of the following:
 - (a) to keep a proper look-out for other vessels that may also be manoeuvring within the area;
 - (b) to keep as near to the outer limit of the fairway which lies on her starboard side where it is safe and practicable;

The following is a reprint of PMC 10/2018

- (c) to proceed at a safe speed at all times;
- (d) to comply with the International Regulations for Preventing Collisions at Sea 1972 as amended; and
- (e) that anchoring is prohibited except in the case of emergency to avoid immediate danger.

The following is a reprint of PMC 10/2018
