

Profile of Tech Solution Providers (Electronic Bill of Lading)

Items	Details
Name of Company	Sintellisys Pte. Ltd.
Brief description of Company and Products/Services	Sintellisys is a technology company that builds Artificial Intelligence (AI) & Web applications on the Cloud for freight forwarders. It is founded in 2018. The founders have a combined 50+ years of technology, consulting & logistics experience, and are uniquely equipped to provide innovative solutions to industry problems. Our products include Freight Automation Platform, Document Automation Platform, Tracking & Rates Automation Platform, Business Intelligence & Analysis Platform and High Productivity Application Platform as a Service .
Brief description of proposed Solution and key attributes	<p>Currently, our document automation platform uses AI to extract information from SI, HBL, MBL including other freight related documents, applies processing logics on the extracted data and shares the results through a few API. Extracting from digital paper BL will improve productivity and accuracy to a certain extent.</p> <p>We are integrating TradeTrust into our Document Automation Platform. This add-on will allow any freight forwarders or stakeholders to process paper BL and electronic BL in a single platform as a service. We intend to integrate into other blockchain solutions. It will enable electronic BL cross solution interoperability.</p>
Who are you looking to connect with?	<ul style="list-style-type: none"> • Connecting with container carriers to provide BL source (e.g. ONE, Wan Hai, PIL, APL) • Connecting with Singapore authorities to achieve greater benefits through automation at custom clearance • Onboard logistics providers (e.g. Toll and other major providers)
Contact Person	<p>Name: James Chan Designation: co-CEO & CTO Email: james.chan@sintellisys.com.sg</p>
