Owners and Operators of Port Facilities

PORT FACILITY SECURITY OFFICER (PFSO) COURSE

1 Under the International Ship and Port Facility Security Code (ISPS Code), it is mandatory for each port facility to designate a Port Facility Security Officer (PFSO). Prior to be designated as a PFSO, the staff must undergo appropriate training as mentioned in the ISPS Code. The PFSO course will be conducted in accordance with the ISPS Code requirements.

2 Owners/operators are advised to send their staff for the PFSO course at an early date so that they can implement the ISPS Code requirements before they enter into force on 1 Jul 2004.

3 To ensure that the course providers have the necessary expertise, capability and infrastructure to provide the training, MPA recognises the following organisations/institutions to conduct the PFSO Course:

- a) CISCO Security Consultancy Singapore (Tel: 6842 8654, Fax: 6741 4020)
