Overview

IMO Model Course 6.10 Train the Simulator Trainer and Assessor – Equips learner with basic skills and knowledge to incorporate simulators as a laboratory component of competency-based training methodology. This version includes the application of competency-based training via shiphandling simulators within the context of adult maritime education and training.

What Will Be Covered

- Apply adult learning theories in a simulation setting
- Determine the context of facilitation according to stakeholders' requirements
- Perform the required preparations to facilitate adult learning
- Employ facilitation skills and facilitation techniques to maximise participation and elicit learning responses to meet learning outcomes
- Explain IMO STCW Section B-I/12.68/69 *Guidance regarding the use of simulators*
