## 9TH MARITIME PUBLIC LEADERS' PROGRAMME

21 – 25 OCTOBER 2019  
 MPA ACADEMY, SINGAPORE

The Maritime Public Leaders' Programme (MPLP) is jointly organised by the Maritime and Port Authority of Singapore (MPA) Academy and the Nanyang Technological University (NTU). The MPLP provides a conducive learning and sharing platform for prominent senior officials in maritime administrations. The programme is helmed by professors from NTU and the Lee Kuan Yew School of Public Policy at the National University of Singapore, as well as experienced practitioners from MPA and the maritime industry. It offers invaluable opportunities for participants to exchange ideas, and network with port and maritime stakeholders in the region.

## WHAT PAST MPLP PARTICIPANTS SAY

“The 7<sup>th</sup> MPLP provided an opportunity for global maritime public leaders to network, share insights, experiences, and become aware of issues that are common and prevailing in the maritime industry. During the sharing sessions, participants acquired ideas on what may be useful and applicable to their respective countries. At the MPLP, Singapore has demonstrated through lectures and site visits that they were able to reach the advanced state of their maritime industry through the optimum use of technology and a high-level of discipline and professionalism of their people. This is definitely a takeaway for us, so much so that when we get back to our home countries, we can immediately begin the process of emulating the Singapore experience.”

Capt Alfredo V Vidal, Jr, Deputy Administrator for Operations, Maritime Industry Authority (MARINA), Philippines, Class of 2017 Maritime Public Leaders' Programme

“The guest speakers, lectures, case studies and visits gave a perspective on Singapore and how it has harnessed innovation, connectivity and talent to develop into the maritime and port powerhouse that it has become while continuing to maintain its vision and excellence in what it does best. My experience at the 8<sup>th</sup> MPLP has reignited my love of learning in a focused environment. I feel that I have broadened and deepened my understanding of many key facets of maritime and port affairs. The programme has also provided insights and knowledge that will positively impact my contribution to my organisation.”

Ms Sharon Grant, Head of Maritime Knowledge Centre, International Maritime Organization, Class of 2018 Maritime Public Leaders' Programme

“The 8<sup>th</sup> MPLP successfully brought together the knowledge, expertise, personnel, and technology of our industry. The speakers were all leaders in the industry and they brought with them the latest and most up-to-date information. Also, this distinguished programme plays a critical role in determining the way forward, shaping our vision and understanding of the global industry. The variety of the programme, including seminars, activities, and breakout discussions, combined with world leaders in our industry, kept the programme fresh and engaging for the entire week. Overall, I was very impressed how years of industry experience were concisely condensed into a few days.”

Mr Saif Al Mazrooei, Chief Operating Officer, Abu Dhabi Terminals, United Arab Emirates, Class of 2018 Maritime Public Leaders' Programme
