

**Profile of Tech Solution Providers (Electronic Bill of Lading)**

Items	Details
<b>Name of Company</b>	#dltledgers
<b>Brief description of Company and Products/Services</b>	<ul style="list-style-type: none"> <li>#dltledgers offers blockchain-based solutions for digital trade and trade financing. For example, enabling trusted validation and authentication of trade contracts and documentations like electronic bills of lading for trade or financing purposes involving multiple parties across the globe. This brings operational savings (e.g. faster transactions), increase security, prevent fraud through improved transparency.</li> <li>Apart from trusted and efficient digital supply chain transactions, our blockchain platform is also widely used by global companies for track and trace purposes. For example, ensuring materials used and sourced are sustainable - tracing recycled plastic, food produce quality, chemical composition of products, reusable/recyclable or compostable packaging products, responsible water &amp; energy consumption, forest preservation, ethical labour practices etc.</li> </ul>
<b>Brief description of proposed Solution and key attributes</b>	<ul style="list-style-type: none"> <li>#dltledgers platform is a SaaS-based solution and is designed to interface with industry utilities such as TradeTrust, for seamless information flow. We are already connected to the TradeTrust network that comprises globally-accepted standards connecting governments and businesses to a public ethereum blockchain to enable trusted interoperability of electronic trade documents across digital platforms and it is offered as a (digital)utility.</li> <li>Our platform’s core infrastructure is architected in compliance with UNICITRAL MLETR framework and we work closely with IMDA for Legal Sandbox testing with multiple jurisdictions under the amended ETA (Electronics Transaction Act) for legal harmonisation, providing legal validity for electronic negotiable documents through compliance to MLETR.</li> <li>We work with all major agencies and standardisation bodies such as UNICITRAL MLETR, International Chamber of Commerce-Digital Standards Initiative (ICC-DSI) and other bodies such as DCSA (Digital Container Shipping Association) looking at standardisation.</li> </ul>
<b>Support required</b>	<p><b>What do you need support on?</b></p> <ul style="list-style-type: none"> <li>Onboard suitable carriers, shippers, traders, consignees, freight forwarders, logistics providers and financiers to form a consortium to respond to the CFP</li> </ul>
<b>Contact Person</b>	<p><b>Name: Shahazeen Shaheer</b>  <b>Designation: Director of Marketing</b>  <b>Email: sglabs@dlt.sg</b></p>
